Fi-Foil Company, Inc.

Safety Data Sheet

AA-2 Vapor Shield Reflective Insulation

Section 1: Identification

Product Name: AA-2 Vapor Shield, AA-2 Vapor Shield Hi-Perm, AA-2 Vapor Shield Tape Tab

Product Use Description: Used to insulate masonry building walls constructed with wood or metal furring strips.

Company: Fi-Foil Company, Inc.
PO Box 800, 612 Bridgers Ave. W.
Auburndale, FL 33823
www.FiFoil.com

Company Contact Phone Number: 863-965-1846. For emergency and general information 8:00am to 5:00pm (Eastern Time) Monday-Friday.

Section 2: Hazard(s) Identification

Classifications:
This product is a manufactured article as defined in the OSHA Hazard Communication Standard. During normal use no exposure to the hazardous ingredients occurs. A SDS is not required. This SDS is provided for informational purposes.

**Product Components:** Natural Kraft(NK) paper with Polyethylene coating, Recycled Natural Kraft (NK) Paper, aluminum metal, hot melt adhesive, adhesive tape.

**Section 4: First-Aid Measures**

**Eye Contact:** If eye contact occurs with molten material immediately cool with water. Do not remove adhesive. Seek medical attention.

**Skin Contact:** Wash exposed skin with soap and water. Molten adhesive may cause severe burns. Cool melted product on skin with plenty of water. Do not remove solidified product. No attempt should be made to remove material from skin or to remove contaminated clothing as damaged skin can be easily torn. Cover affected areas with clean sheeting or gauze and seek immediate medical attention.

**Inhalation:** Not a likely route of exposure.

**Ingestion:** Ingestion of solid adhesive is not expected to be hazardous. If symptoms develop and persist, get medical attention.

**Notes to Physician:** Symptomatic and supportive therapy as needed.

**Section 5: Fire-Fighting Measures**

**Flash Point:** solid not applicable

**Fire and Expulsion Hazards:** None

**Extinguishing Media:** Use extinguishing measures appropriate to local circumstances and the surrounding environment; water, foam, dry chemical, CO₂.

**Hazardous Decomposition Products:** Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

**Fire Fighting Procedures:** Wear positive pressure self-contained breathing apparatus(SCBA). Wear full protective equipment.

**Further Information:** NFPA Hazzard Code

Section 6: Accidental Release Measures
Personnel Precautions: None due to material form.

Environmental Precautions: None due to material form.

Methods of Cleaning Up: None due to material form.

Section 7: Handling and Storage
Precautions for Safe Handling: Avoid skin contact with molten resins.

Conditions for Safe Storage, Including Incompatibilities: Rolls may telescope. Plastic packaging materials can pick up a static charge. Rolls packaged with shrink wrap or other plastic over wrap should be opened or unwrapped only in non-process areas where ignition sources such as solvents are not in use or in storage.

Store away from heat and sources of ignition. Do not store outside or in direct sunlight. Avoid exposure to oxidizing agents. Recommended storage temperatures are 20F to 100F.

Section 8: Exposure Controls/Personal Protection
Engineering Measure: Work should be done in an adequately ventilated area (i.e., ventilation sufficient to maintain concentrations below one half of the PEL and other relevant standards). Local exhaust ventilation is recommended when general ventilation is not sufficient to control airborne contamination.

Eye Protection: Safety glasses with side shields or safety goggles are recommended during installation.

Hand Protection: Use impermeable gloves while handling material during installation, removal or disposal. Wash hands before eating or handling foods.

Respiratory Protection: No personal respiratory protective equipment normally required. Where the potential exists for exposure to decomposition products due to heating or elevated temperatures, wear NIOSH approved respiratory protection as appropriate.

Work/Hygiene Practices: Installation sites might require safety considerations such as working in attics or confined spaces. Make sure there is sufficient ventilation. Wear hard hat where there the potential for injury due to exposed nails or other such hazards in the area where the product is being installed.

Section 9: Physical and Chemical Properties

Physical State: Solid

Appearance: Brown/Foil

Odor: None

Evaporation Rate: Solid not applicable

Flash Point: Solid Not Applicable

Solubility in Water: Insoluble

Flammability: ASTM E84-E2599 Class II (or B)

Flash Point: Solid not applicable

Vapor Pressure: Not Applicable

Boiling Point: Not applicable
Decomposition Temperature: Unknown  Auto Ignition Temperature: Unknown

Section 10: Stability and Reactivity

Chemical Stability: Stable under recommended storage conditions

Possibility of Hazardous Reactions: None

Hazardous Decomposition or By-Products: Thermal decomposition can lead to release of irritation gases and vapors, carbon monoxide, carbon dioxide.

Incompatible Materials: exposure to oxidizing agents

Conditions to Avoid: Direct sunlight and moisture.

Section 11: Toxicological Information

Primary route(s) of Exposure: Skin contact

Inhalation: Unlikely to occur under recommended storage conditions.

Skin Contact: Some individuals may experience skin sensitivity or minor irritation due to paper and polyethylene dust residue, oil on aluminum or film additives. Molten adhesive may cause severe burns.

Eye Contact: Molten adhesive may be irritating to eyes.

Ingestion: Non-hazardous.

Chronic Effects: No data available.

Carcinogenicity: The ingredients of the product are not classified as carcinogenic by ACGIH or IARC, not regulated as carcinogens by OSHA, and not listed as carcinogen by NTP.

Mutagenicity: No applicable data.

Reproductive Effects: No applicable data.

Teratogenicity and Fetotoxicity: No applicable data.

Section 12: Ecological Information

Ecotoxicity: Not applicable

Persistence and Degradability: Not classified as readily biodegradable.

Bio-accumulative Potential: No evidence of occurrence.

Mobility in Soil: Not applicable

Other Adverse Effects: None
Section 13: Disposal Considerations
Dispose of in accordance with existing federal, state and local environmental control regulations. This material is not a hazardous waste under RCRA CFR261 when disposed of in its purchased form.

Section 14: Transport Information
FDOT: Non-Regulated
IMDG/IMO: Non-Regulated
ICAO/IATA: Non-Regulated
Reportable Quantity(RQ): Non-Regulated

Section 15: Regulatory Information
U.S. FEDERAL REGULATIONS
TSCA (Toxic Substance Control Act): All components are either listed or exempt from TSCA
CERCLA: Hazardous Substance: No products were found.
SARA 302 Extremely Hazardous Substances: None
SARA 311/312 Hazard Categories: None
SARA 313 Reportable Ingredients: No products were found.
SARA 313 Toxic Chemical and Release Reporting: No products were found.

STATE REGULATIONS
CA Prop 65: This product is not known to contain any components listed on California’s Proposition 65 List.
